

A year of FIEP webinars

Heikki Väänänen DG GROW.H.1 Construction

Fire Information Exchange Platform (FIEP)

- Commission considers that improvements in fire safety would be facilitated by co-operation among Member States and relevant stakeholders
- On this basis FIEP has been created in 2017 for sharing the best practices and lessons learned in the area of fire safety
- Focus on domestic fires with 5 broad areas of interest:
 - common terminology and fire statistics,
 - application of fire prevention principles,
 - new products and high-rise buildings,
 - the exchange of experience from fire accidents,
 - the use of a fire engineering approach in building regulations.
- No “formal” role – platform for exchange and learning

Fire Information Exchange Platform (FIEP)

Topic	Date	Nbr participants
Electrical fire safety	7.12.2022	132
Fire statistics	2.2.2023	147
Involvement of women in the fire world	8.3.2023	84
